

# ENDIPHOS™ PHOSPHATE ESTERS

The Coast Southwest line of phosphate esters is a portfolio of multifunctional additives which impart beneficial attributes such as corrosion inhibition, increased lubricity, and emulsification to a diverse range of lubricant products. ENDIPHOS™ Phosphate Esters offer all of the properties you need to keep your operations running smoothly even under extreme pressures.

**ENDIPHOS™ 2-EHAP04**

2-Ethyl Hexyl Acid Phosphate

**ENDIPHOS™ AMYL ACID PHOSPHATE-EP**

Amyl Acid Phosphate

**ENDIPHOS™ OCTYL ACID PHOSPHATE**

Octyl Acid Phosphate

**ENDIPHOS™ 380 SURFACTANT**

Alkyl Phosphate Ester

**ENDIPHOS™ TC-227**

Alkyl Aryl Phosphate Ester

**ENDIPHOS™ TC-310**

Alkyl Aryl Phosphate Ester

**ENDIPHOS™ TR-421**

Alkyl Ether Phosphate Ester

**ENDIPHOS™ TR-440**

Alkyl Ether Phosphate Ester

**ENDIPHOS™ XP-5**

Alkyl Ether Phosphate Ester

# FIND YOUR WORKFLOW.

**INDUSTRIAL LUBRICANT ADDITIVES**

Coast Southwest is committed to advancing industrial lubrication technology through the manufacture and distribution of quality additives to enhance our customers' formulations and products.

Our advanced research and development capabilities have inspired a line of industrial lubricant additives that provide a streamlined workflow for our customers.
