Sharomix AMPLIFY™

Where Less is More

The main challenge of mild, "Free Of" preservatives is microbial contamination. Sharon is offering a new preservative solution, with amplified efficacy.

The range offers broad spectrum, superior activity, allowing a significantly lower level of use in finished product.

less preservative delivers **more** protection.

PRODUCT

INCI

- Sharomix™ AM 20 Phenoxyethanol, Ethylhexylglycerin, Didecyltrimonium chloride
- Sharomix™ AM 23 Phenoxyethanol, Ethylhexylglycerin, Polyquaternium-80
- Sharomix™ AM 24 Methylpropanediol, Caprylyl glycol, Polyquaternium-80, Didecyltrimonium chloride

BENEFITS

- Broad spectrum
- Non pH dependent
- Reduced level of use ~0.5

APPLICATIONS

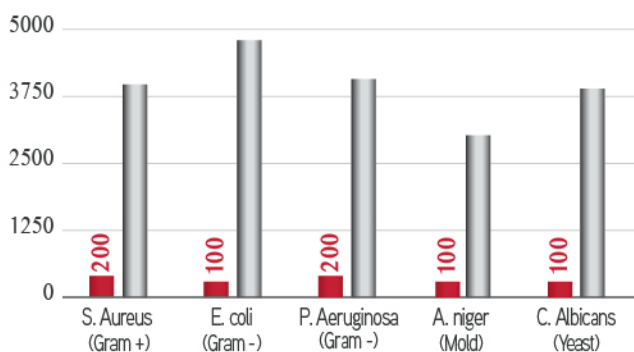

- Leave-On
- Rinse-Off
- Wet wipes

100% Free of

- Parabens
- Isothiazolinones
- Formaldehyde

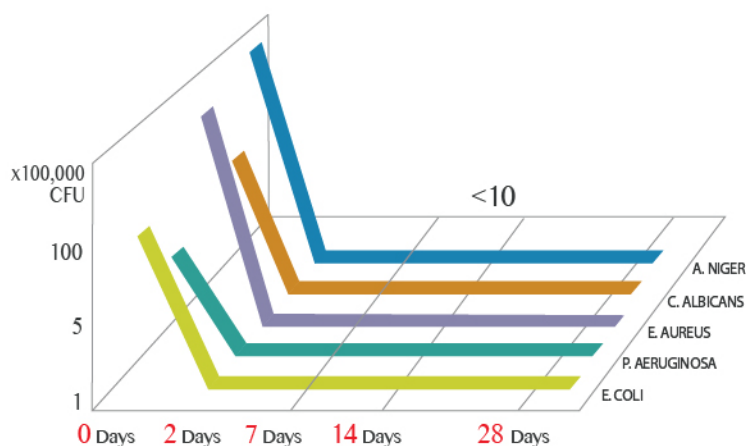

MIC comparison

■ Sharomix™ Amplify (Phenoxyethanol, Ethylhexylglycerin, Cationic surfactant) VS
a blend of ■ Phenoxyethanol & Ethylhexylglycerin

Challenge test

at 0.5% of Sharomix™ Amplify

CHALLENGE TEST

PASSED

The product meets the USP criteria for category 1 products.

Tested on leave-on and rinse-off products.
